EDUCATION

IT SCHOOL GO IT (KYIV)
QA Engineer
2023-2024

NATIONAL AVIATION UNIVERSITY (KYIV)
Bachelor Air Traffic Control
2020-2024

ABOUT ME

I'm a Junior QA Engineer. My strengths are quick and easy learning of new technologies, logic and willingness to complete any task. I'm self-disciplined, goal-oriented and good team player. Day to day I like to learn more about this occupation to improve my knowledge and strive to become better in it. After experimenting with programming languages at an entry level (C#, C++, Java, Python), I concluded that it wasn't my ideal path. Consequently, I've made the decision to transition into Quality Assurance. It's the purpose of my searching for a company where I can use my skills and make my way into IT.

PET-PROJECTS

Amazon smoke testing

- Conducted smoke testing and created a checklist for functional and UI testing
- Developed test cases for detailed testing documentation
- Conducted testing across various browsers and screen resolutions
- Utilized Chrome DevTools for efficient testing

Spotify API testing

- Tested the Spotify API using various requests with Postman and worked with different methods: GET, PUT, POST, DELETE
- Configured Postman with the necessary Client ID and Client Secret for the testing process

Work with some SQL database

- Creating and estimating the tasks
- Using SQL database management system
- Reproducing some queries through Dbeaver
